Reflexions

## Picture Description<sup>1)</sup>

A black and white shot of a symmetrical building with a tall, thin window section and a bare tree in front, showcasing urban architecture.

## Analysis<sup>1)</sup>

This black and white photograph presents a symmetrical facade of a building, exhibiting a stark contrast between light and shadow. The building is composed of repeating rectangular windows, a centrally located tall, narrow window, and a dark doorway recessed at the base. To the right, a bare tree stands in front of the building, its branches creating an intricate network against the plain backdrop. A street-level billboard and a lamppost add to the urban setting. The composition's emphasis on geometric shapes and clean lines gives it a distinctly modern and architectural aesthetic.
