Movement I

## Picture Description<sup>1)</sup>

Abstract photograph of light trails in the darkness, creating a sense of motion and energy.

## Analysis<sup>1)</sup>

This abstract photograph captures the dynamic energy of urban nightlife through a long-exposure technique. Streaks of light in vibrant hues of orange, red, white, and green cut through the darkness, creating a sense of motion and speed. The blurred lines and swirling patterns evoke a feeling of chaos and exhilaration, reminiscent of a bustling city street at night. The overall effect is a visually arresting composition that explores the ephemeral nature of light and movement.
