Breaking Night

## Picture Description<sup>1)</sup>

A low-angle shot of a high-rise building against a clear blue sky.

## Analysis<sup>1)</sup>

A minimalist composition featuring a modern, tiered building in the lower right corner against a vast, gradient blue sky. The building is depicted as a dark silhouette, with a few lit windows suggesting activity within. The strong contrast between the geometric structure and the expansive, serene sky creates a sense of stark isolation and architectural presence.
