Temporary Changes

## Picture Description<sup>1)</sup>

A high-contrast photograph shows road markings featuring a white lightning bolt and a yellow trident on asphalt.

## Analysis<sup>1)</sup>

This compelling abstract photograph presents a close-up view of markings on asphalt. A striking white, jagged shape resembling a stylized lightning bolt contrasts sharply against a dominant black background speckled with minute imperfections, creating a gritty texture. Intersecting the white form is a vibrant yellow shape, seemingly a worn road marking, contributing a sense of urban decay and visual depth. The composition utilizes a dynamic diagonal axis, drawing the viewer's eye across the frame and emphasizing the tension between the geometric shapes and the raw texture of the surface. The interplay of color, texture, and form creates a powerful statement about the transient nature of urban life and the beauty found in decay.
