Cyan Sky

Picture Description¹⁾

An abstract long exposure shot of a city street with blurry lights and buildings against a blue sky.

Analysis¹⁾

Captured with an intentional blur, this photograph evokes the vibrant energy of a city at twilight. Bare branches of a tree reach skyward against a turquoise dusk, while building lights are rendered as streaks of gold and red, creating a dynamic dance of form and color. The impressionistic quality invites the viewer to experience the essence of urban life through a lens of abstract beauty and movement.
