Dancing Lights XXXVI

## Picture Description<sup>1)</sup>

Abstract photograph featuring blurred lights and shapes in blue and dark tones, possibly depicting a city scene at night.

## Analysis<sup>1)</sup>

This abstract photograph, bathed in a cool blue palette, presents a blurred and distorted cityscape at night. Long exposures have transformed lights into streaking patterns, evoking a sense of motion and ethereal beauty. The composition is divided by a diagonal line, separating a field of diffused blue from a darker, chaotic area where architectural forms and vehicle lights merge into luminous trails. This intentional blurring technique creates a dreamlike quality, inviting the viewer to contemplate the ephemeral nature of urban life and perception.
