

# 002116

Sun

## Picture Description<sup>1)</sup>

A pale, hazy full moon hangs in the dark night sky.

## Analysis<sup>1)</sup>

This photograph captures a solitary celestial body, likely the moon or sun, rendered in a soft, diffused light against a vast, dark expanse. The subject's circular form is slightly hazy, imbuing it with a dreamlike quality. The contrast between the luminous orb and the inky blackness of the sky creates a serene yet impactful visual experience, inviting contemplation on themes of isolation and the immensity of the universe.
