White on Black I

## Picture Description<sup>1)</sup>

A black and white photograph of a crosswalk with textured stripes receding into the distance.

## Analysis<sup>1)</sup>

This striking black and white photograph presents a crosswalk stretching into the distance. The strong contrast between the stark white stripes and the enveloping darkness creates a dramatic, almost surreal effect. The paving stones of the zebra crossing offer a tactile texture, contrasting with the flat blackness of the surrounding pavement, inviting contemplation of urban space and perspective.
