Ferry Crossing I

## Picture Description<sup>1)</sup>

An abstract, blurred photograph of an urban landscape with buildings and a reflective surface.

## Analysis<sup>1)</sup>

This evocative abstract photograph captures the essence of a cityscape in motion. Blurred buildings and reflections create a dreamlike atmosphere, suggesting the transient nature of urban life. The limited color palette of blues, grays, and whites emphasizes the feeling of distance and detachment, inviting the viewer to contemplate the fleeting moments within the urban landscape. The blurred figure on the right side creates another emotional layer, hinting on transience of life.
