Deep Blue

Picture Description¹⁾

A diptych of abstract blue water reflecting light, creating a blurred and fluid texture.

Analysis¹⁾

This diptych presents a mesmerizing study of water in motion. The deep blue hues dominate the canvas, shifting from lighter, almost turquoise tones at the top to an intense, dark navy at the bottom. The surface of the water is alive with ripples and currents, captured in a blur of motion that suggests a constant, dynamic energy. The repetition of the photograph in two panels creates a sense of immersive infinity, drawing the viewer into the depths of the water and inviting contemplation of the ever-changing nature of the aquatic environment.
