Rain Drops

Picture Description¹⁾

A blurry view of city lights through a rain-covered window.

Analysis¹⁾

This abstract photograph captures the distorted view through a rain-streaked window, blurring the world outside into a bokeh-filled dreamscape. The play of light and water creates an ethereal atmosphere, hinting at city lights or traffic signals beyond the veil of the downpour. The contrast between the sharp, individual raindrops and the soft, diffused light evokes a sense of both isolation and wonder.
