

008429

Barcode Wall II

Picture Description¹⁾

Abstract monochrome composition of parallel angled stripes alternating between white and black.

Analysis¹⁾

This black and white photograph showcases a compelling abstract pattern created by repeating, angled lines. The strong contrast between light and shadow emphasizes the geometric forms, lending the photograph a stark, modern aesthetic. The lines are not perfectly uniform, hinting at a textured surface and adding a sense of depth and complexity to the overall composition.
