Dark Cross I

Picture Description¹⁾

A graphic illustration of a black cross on a white background.

Analysis¹⁾

This abstract composition features a bold, black cross against a stark white background. The artist employs a minimalist approach, focusing on the interplay of positive and negative space. The cross, a universally recognized symbol, is rendered with slightly rounded edges, softening its impact and adding a touch of organic imperfection to the geometric form. The surrounding black border emphasizes the central photograph, creating a sense of containment and drawing the viewer's eye to the core of the artwork.
