NY Cables I

Picture Description¹⁾

A black and white low angle shot capturing urban elements such as utility poles, wires, and building silhouettes against a cloudy sky.

Analysis¹⁾

This striking black and white photograph presents a stark urban landscape dominated by the silhouette of a utility pole, its intricate web of wires contrasting sharply against a cloud-strewn sky. The deep shadows of surrounding buildings frame the scene, creating a sense of confinement and highlighting the density of the urban environment. The upward gaze and high contrast emphasize the verticality of the pole and its complex network, inviting the viewer to contemplate the infrastructure that underpins modern life.
