Bypassing Lady Liberty II

Picture Description¹⁾

A view of the Statue of Liberty and a Staten Island Ferry from between dark horizontal bars.

Analysis¹⁾

This photograph captures the iconic Statue of Liberty alongside a vibrant Staten Island Ferry, both framed by a foreground obscuration that adds depth and a sense of voyeurism. The composition juxtaposes the historical monument with the everyday transportation of New York City, hinting at the city's dynamic blend of past and present. The muted color palette lends a timeless quality to the scene, while the intentional framing draws the viewer into a unique perspective on familiar landmarks.
