Tribute in Light I

## Picture Description<sup>1)</sup>

A cityscape at night features illuminated buildings and a memorial light beam shining skyward, all against a dark sky.

## Analysis<sup>1)</sup>

This photograph captures the iconic New York City skyline at night, dominated by the towering One World Trade Center. The city lights glitter against the dark water, creating a dramatic contrast. The somber sky adds a layer of gravitas, while the twin beams of light rising into the sky serve as a poignant reminder and a beacon of hope. The composition emphasizes the verticality of the buildings, conveying a sense of urban grandeur and resilience.
