Hudson Yards II

## Picture Description<sup>1)</sup>

A grayscale cityscape featuring illuminated skyscrapers and a dark waterfront under a night sky.

## Analysis<sup>1)</sup>

This black and white photograph presents a captivating cityscape at night, likely captured from across a body of water. Prominent skyscrapers dominate the skyline, illuminated with a constellation of lights that reflect upon the water's surface. The composition is characterized by a strong sense of depth, with the buildings fading into the distance, creating a layered and dynamic perspective. The high contrast enhances the urban drama, highlighting the stark geometry of the buildings against the dark sky and water. The photograph evokes a sense of urban energy and the quiet beauty of a city at rest.
