Crop Shadows IV

## Picture Description<sup>1)</sup>

A patch of harvested field shows stubble and loose straw scattered on the dark soil.

## Analysis<sup>1)</sup>

This photograph presents a close-up view of a field after harvest. The scene is dominated by stubble and remnants of straw, creating a textured landscape of greys, blacks, and subtle hints of golden yellows. The composition utilizes a high-angle perspective, giving the viewer an encompassing look at the earth's surface. The interplay of light and shadow emphasizes the rugged terrain and the sparseness of the post-harvest environment.
