Street in Arles

## Picture Description<sup>1)</sup>

A black and white photograph depicts a narrow, weathered alleyway lined with tall buildings, featuring a central rain drain and punctuated by dark bollards, receding into a bright, distant vanishing point.

## Analysis<sup>1)</sup>

Captured in stark black and white, this photograph presents a narrow alleyway receding into the distance. The composition is heavily reliant on leading lines, with a central drain guiding the viewer's eye through the urban canyon. Buildings on either side stand tall and imposing, their surfaces displaying the textured patina of age and neglect. Dark doorways and empty window frames add to the sense of mystery and isolation. The use of monochrome enhances the grittiness and timelessness of the scene, creating a compelling urban landscape devoid of human presence.
