Kobelgraben II

Picture Description¹⁾

A black and white cityscape featuring silhouettes of buildings, trees, a bridge with a lone figure, and a contrail in the sky.

Analysis¹⁾

This black and white photograph presents a stark urban landscape dominated by silhouetted forms against a pale sky. Bare trees frame the scene, their skeletal branches reaching towards the heavens. A bridge, punctuated by a solitary figure, cuts across the middle ground, connecting two areas shrouded in shadow. A contrail slices diagonally across the sky, adding a sense of movement and scale. The high contrast and dramatic composition evoke a sense of solitude and the urban condition.
