

013310

EN 124

Picture Description¹⁾

A close-up of a textured manhole cover with repeating angled rectangular patterns and manufacturer's markings.

Analysis¹⁾

This black and white photograph captures a close-up view of a metal surface, of a bottom hole cover. The surface is textured with a repeating pattern of raised, curved shapes, resembling small 'L's or right angles. These shapes create a visually engaging grid across the frame. A prominent seam runs diagonally through the photograph, dividing the pattern. In the corners, sections of lettering and a logo are visible, indicating the manufacturer or standard of the metalwork. The high contrast and stark lighting emphasize the textures and patterns, creating a bold and graphic composition.
